

Parts

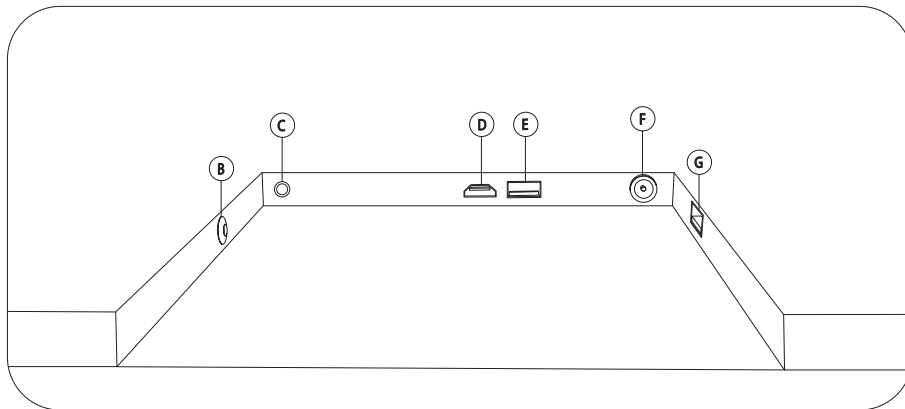

Front Profile

Back Profile

These are the four holes that would secure the spectrum to the bolts installed on the wall.

Note: For your convenience the set top box comes pre-installed at the back of the spectrum. This chart is created to help the user maximize the full benefits of the product and not as a guide for installation.

A		Frame
B		Power Port for Android
C		Audio Port
D		HDMI Port for the Set Top Box
E		USB Port
F		Power Port
G		USB Port

Note:

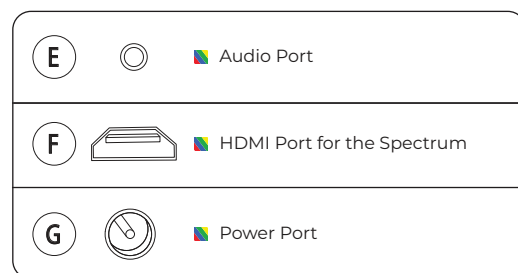

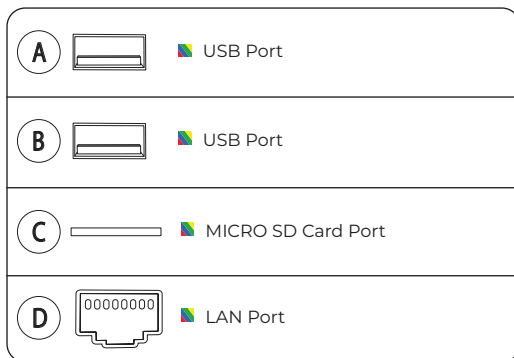

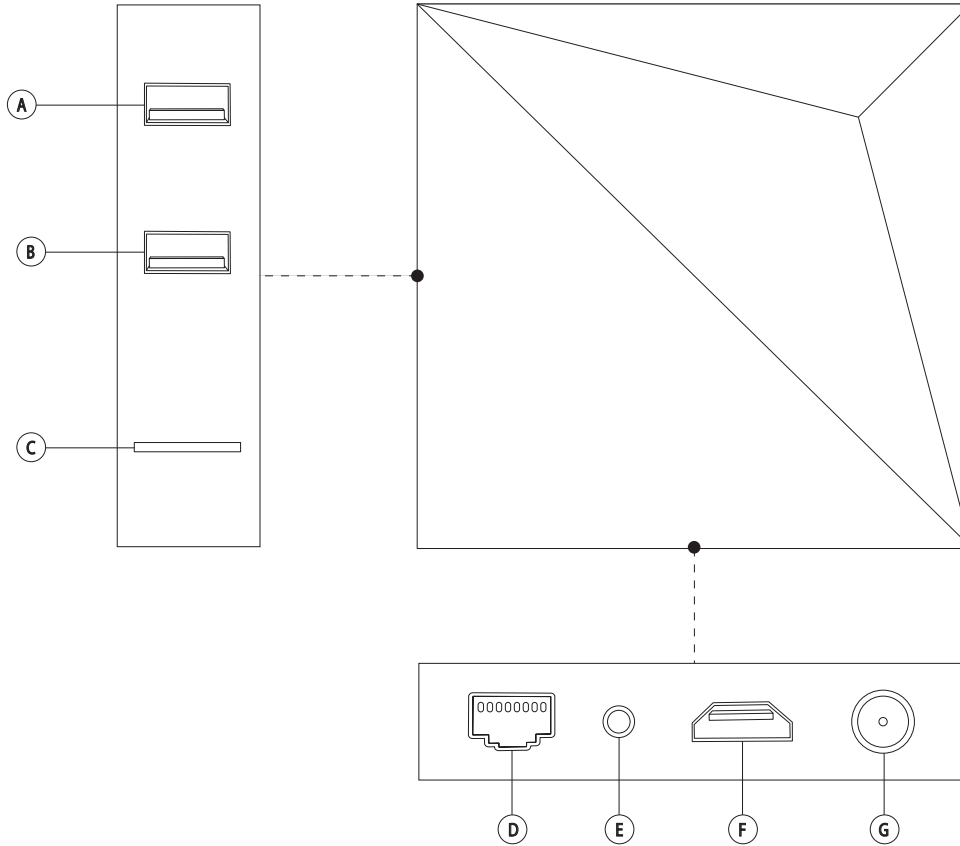

- Once the spectrum is installed on the wall, the ports at the back will no longer be accessible.
- The Spectrum has built-in speakers.
- The Spectrum is designed to be Gap-free. There will be no space between the T.V. and the wall when it's installed.
- The frame comes in a variety of designs to choose from.
- Spectrum also comes in portrait orientation but only if requested.

Set Top Box

Parts and manual

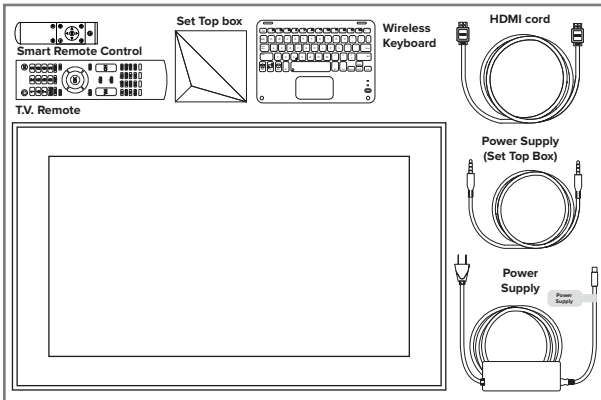

Front Profile

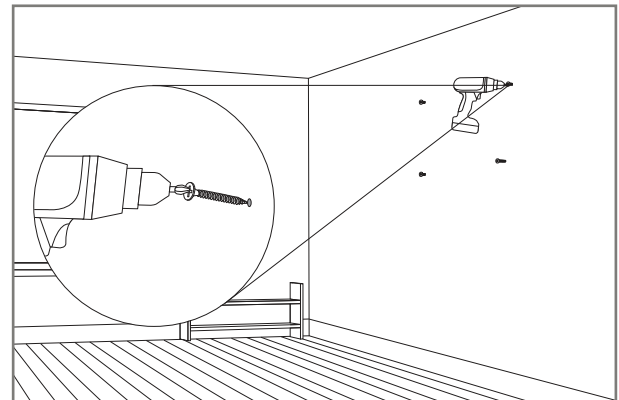

Note: The USB receivers need to be connected to the Set Top Box in order to work.

Once the spectrum is installed on the wall, the ports at the back will no longer be accessible. Attach all the things that need to be attach before hanging the mirror to the wall.

1 Check the items after receiving

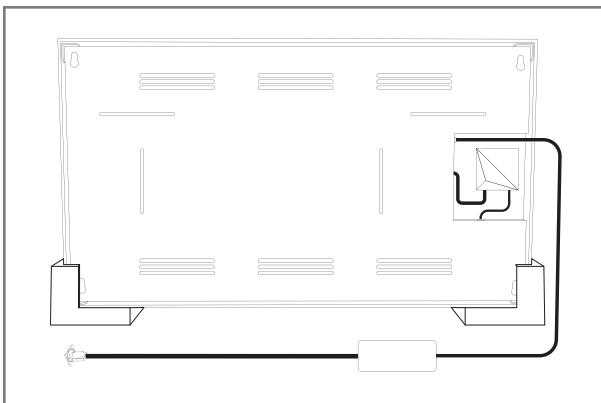

Before installing, check to ensure that you have received all the package contents.

2 Install four screws to the wall.

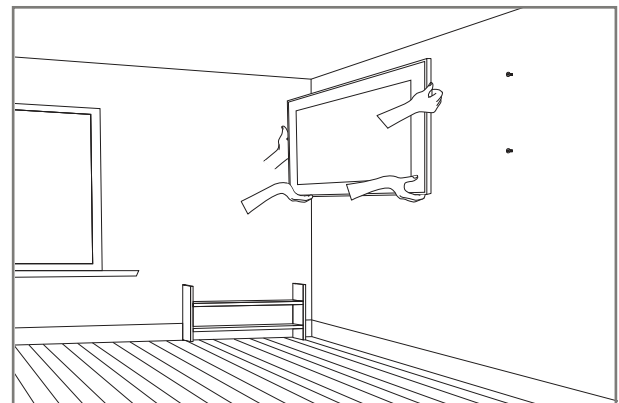

Ensure the wall is correctly prepared for installation. Determine the type of screws or bolts needed for the wall surface you are installing to. Drill holes into the wall and install four screws in.

(Note: It is the installer's responsibility that all electrical, audio/visual, and framing construction is code compliant.)

3 Attach the power cord

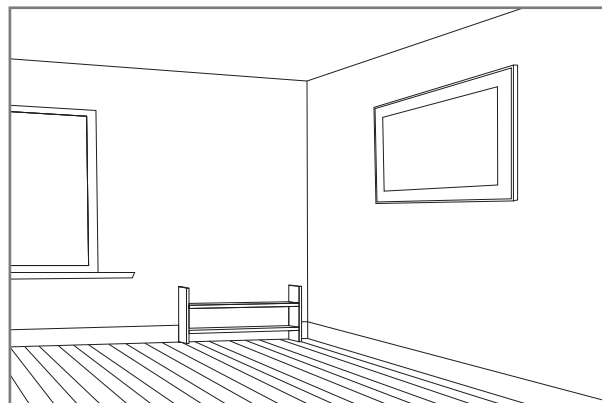

Lay the Spectrum T.V. on a padded surface to connect the power cord.

4 Hang TV

Carefully lift the T.V. and securely engage the four holes in the corners of the mirror to the screws installed on the wall.

(Note: It is recommended that 2 or more people assist in the installation of this mirror.)

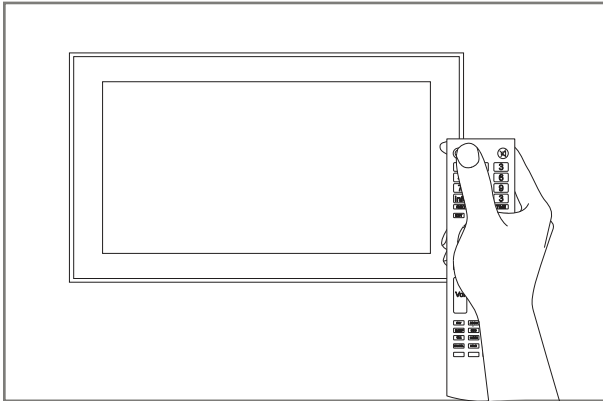

5 Finished.

Enjoy your new Spectrum T.V.

Spectrum T.V.

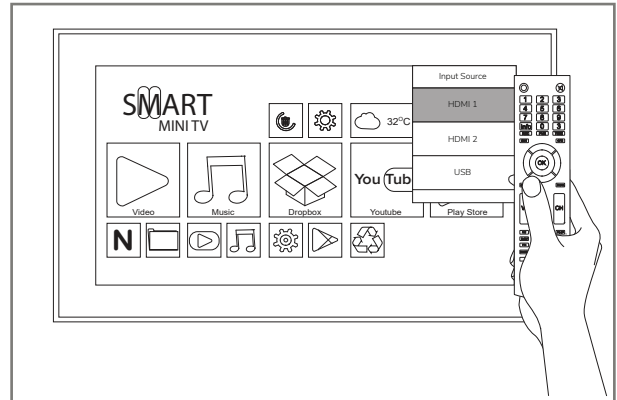

Initial Set up

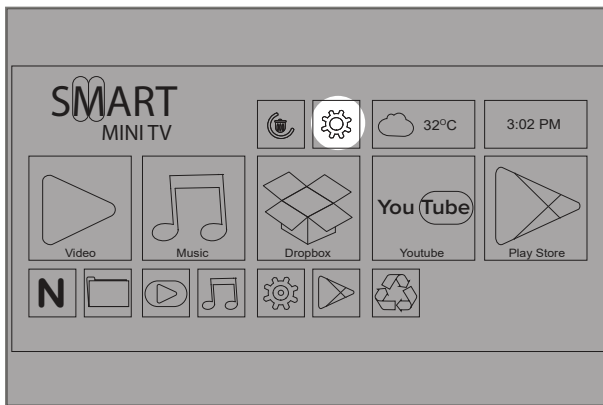

1 Turn the T.V. on

Turn the T.V. on by pressing the power button on the T.V. remote control.

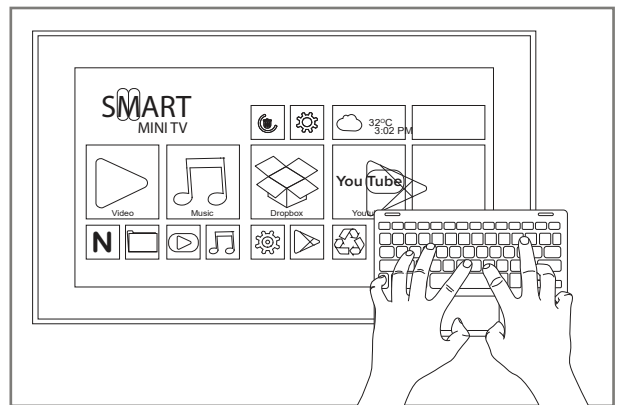

2 Press Source

Press the source button on the remote. On the small source input settings that would pop up, choose and press HDMI 1.

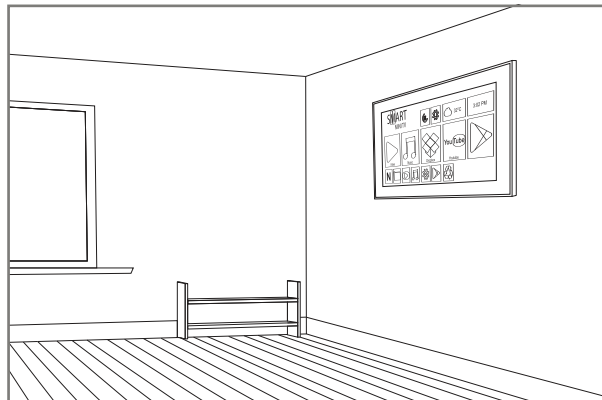

3 Connect to Wifi

Press the settings icon and connect to the internet.

4 Control and manage apps

Use the keyboard to navigate through the spectrum and customize your T.V.

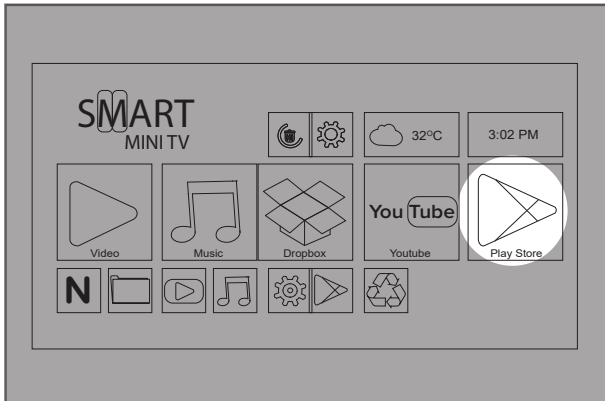

5 Done.

All set. The spectrum T.V. is ready to use.
