

Evervue / Mirrorvue 4K Software Upgrade Instructions:

Latest update: July 2019

1. Unzip the attached file so that you see a file called MERGE.bin
2. Save the BIN file to an empty memory USB stick.
3. Unplug the power supply from the TV.
4. Wait for 5 seconds.
5. Insert the USB stick into the USB input of the TV.
6. Plug in the power supply.
7. Wait for 3 minutes.
8. The software upgrade is complete.
9. (IMPORTANT) Remove the USB stick from the TV and remove the software from the USB stick to avoid future software updates.

Do you want to change the language?

1. Press "Menu" on the screen.
2. Go to "Settings".
3. The first option is the "Language". You can change this by clicking the arrows on the remote.
4. Press "Exit" to return.

Is the screen showing upside down?

1. Press "Source" on the remote.
2. Then press 2-0-0-8.
3. You are now on the Settings menu.
4. Select "User Set" by clicking the arrows on your remote control.
5. Select "Mirror Enable".
6. Select the correct display setting. (Please note that there are 4 different "Mirror Options" here).
7. Press "Exit" to return.
