

1 Go to Play Store to download and install "Mic Test":

2 After installing "Mic Test", go to your home screen to find and click the "Mic Test" app in your installed applications.

3 After opening the application, your screen will show this. If your microphone is ready for testing, click "START" and start speaking.

4 If the line points from white to orange or red, and when you can hear yourself, your microphone is working well.
